ABOUT US

Oak Group provides construction and Logistics solutions in both low and high-threat environments, backed by reliable and secure processes, this enables us to give you the best experience with quality services offered. Registered in USA, our proven business processes and infrastructure have positioned us as one of the leading providers in East Africa.

Oak Group headquarter is located in AAIA, Mogadishu, Somalia. We provide multiple solutions in each of our global lines of services, which have been professionally and authentically built to best suit and benefit our market and clients. We specialize in complex construction and logistics solutions.

Oak Group delivers some of the most technically complex projects in the most inhospitable environments, providing innovative solutions and services to overcome our clients' challenges. From complete, turnkey engineering services that integrate with the other solutions in our portfolio to individual services for any phase of your project lifecycle, we apply practical experience and expertise to deliver solutions for any program, project or operation.

Our logistics teams have wide experience in handling difficult logistic tasks. Oak Group has successfully supported clients in some of the most challenging areas of the world. We provide logistics solutions that are globally responsive, operationally-precise, and cost-effective for our clients. Our aim is to enable our clients, to move and build efficiently, safely, and most importantly on time. We provide a comprehensive range of transportation services from Air freight, Sea freight and Road freight. We deliver value to our clients by providing the most reliable and efficient solutions in global supply chain and Procurement, Clearance Services and Road Freight Solutions.

Vision

To be an innovative inspiring organization that provides great value to our clients, partners and industry.

Mission

To develop solutions that empower our communities to be stronger, live safer and break through barriers with our innovation.

Core Values

Our values are the glue that holds us together even when everything around us is changing. They are our guiding principles that we rely upon to help us accomplish our mission.

EXCELLENCE:

We strive to be the best at everything we do.

INTEGRITY:

We are committed to the highest standards of ethical behavior.

We communicate with honesty and courage

We are consistent in what we say and do

DIVERSITY:

We maintain an inclusive work environment where individual talents and perspectives are valued and leveraged.

RESPECT:

We treat others fairly and courteously

We value different ideas, opinions, and experiences

We demonstrate compassion and humility by understanding the challenges of our constituents

COLLABORATION:

We foster teamwork to promote creativity, learning, and a broader sense of ownership.

RESPONSIBILITY:

We demonstrate a positive spirit and perseverance to overcome adversity

We promote a safe and secure workplace while ensuring quality in all we do

We embrace our role as a global citizen by caring for our community and the environment

Our Services

Oak Group delivers a complete range of customer specific tailored solutions for their day to day processes for government and commercial clients worldwide for classified and unclassified requirements. Our full spectrum service solutions support both contingency and permissive environments, making us a go to force for our customers in any environment worldwide. Whether we are enabling fleets, formations or functions, we are prepared with sustainable solutions for humanitarian operations and disaster relief at home and around the world. We strive to ensure our customers receive the best value and deliver integrated basic and advanced training and mentoring solutions to suit any situation.

Some of our services are but not limited to:

Logistics

Oak Group has experience procuring, transporting, and managing all classes of supply, including food, fuel, construction materials, medical necessities, and vehicle parts in austere, non-permissive environments. We work closely with our customers to manage supply inventory and work through unforeseen market changes to reduce operational risk. We work with vendors to expedite delivery times, reduce costs, minimize waste, and mitigate supply disruptions.

Our Logistic services includes:

- Global supply chain and Procurement
- Seaport & Airport Cargo Clearance Services
- Road Freight Solutions
- Warehousing Solutions
- Project cargo
- Ship Agency
- Final Mile Delivery
- Domestic Door to Door

DOMESTIC EXPEDITED LOGISTICS

Our Domestic Expedite service utilizes a mix of multiple delivery solutions to streamline the delivery process of your goods for minimized time and maximum cost efficiency. We operate and Mobilize effectively in Dangerous environments.

Some of the areas we deliver services are but not limited to:

- Mogadishu
- Berbera
- Kismayo
- Bossaso
- Galkayo
- Baidoa
- Jowhar
- Barawe
- Balidogle Military Airfield
- Dhusamareb

Base operations & Maintenance Support services

We provides timely, effective, and high-quality operations and maintenance (O&M) support to enhance the performance, personnel readiness, and force sustainment capabilities in the facilities we manage. Oak Group experts perform regular inspections, routine care, preventative maintenance, interior improvements, and repairs for a variety of facilities worldwide.

We also assist in:

- Program Management
- Operations and Maintenance (O&M)
- Food and Personnel Services
- Supply Operations Management
- Base Environmental Services
- Emergency Support Services

Fuel Contracting

Lock in a worry-free price for your diesel, gasoline and Jet A-1 purchases so you can concentrate on your operations. Take the guesswork out of budgeting for your projects with our fuel contracting program. Oak Group's contracting programs, enables you to lock in a set price and shelter yourself from price spikes caused by fluctuations in demand and uncertainties like weather or world events.

Fixed Price Contracts

Lock in a price per gallon for the duration of the contract period so you can guarantee your price and forecast your expenses.

Maximum Price Contracts

Take advantage of possible price declines during the contract period. By paying a nominal fee, your cost effectively has a ceiling – a rate it will not exceed – but no floor. If fuel costs go down, so will your price.

Some of the products we supply include but not limited to:

- Diesel, Gasoline, Jet A-1
- Oil and Lubricants
- Propane Gas

Man Power

We provide highly qualified professionals to support with the best top, middle and lower level firms in a short, medium- and long-term basis. Our Manpower Provision services will reduce the worries of our customers

about compensation, insurance, labor law and accommodation of their employees as required. Thanks to our unflinching commitment to the best interests of the businesses and job seekers, we have gained the reputation of being a reliable, fair-minded and straightforward legal manpower supplier. Our management structure allows our staff to report directly to our clients. To assist in the case of an emergency or to cover surge requirements, we have the ability to provide deployment in dangerous environments within 48 hours.

Our man power include but not limited to:

- Laborer's Management Services
- Drivers
- Mechanics
- Cooks
- Electricians
- Carpenters
- Skilled construction laborer's
- Janitors

Engineering, Procurement & Construction Management

We have built our construction reputation by completing projects on-time and within budget. Our leadership offers decades of engineering experience, proven project management, and outstanding safety records. Our engineers also have extensive experience building runways, taxiways, and supporting structures for military airfields and airbases around the world.

Oak Group offers government-certified engineering, procurement, logistics, construction, and commissioning services to build the permanent and temporary structures customers require to support their unique mission needs. We work closely with our design teams and subcontractors on every project to deliver safe, performance-driven, cost-effective solutions that meet customer needs, schedules, and budgets. We also have cleared heating, cooling, electric, and plumbing experts to assist with new construction and renovation projects.

Airfield & Airbase Services

At Oak Group we boast of having experience resurrecting airfield infrastructure, repairing concrete/asphalt runway pavements, and renovating airfield facilities and structures. We also built pilot training facilities to support a variety of rotary and fixed-wing aircraft and military aviation operations, while implement the highest safety and quality standards.

In addition, Oak Group provides on-site support to include aircraft maintenance, and refueling. Our workforce is experienced in handling and transporting which helps in manifesting all aircraft, freight, and personnel.

Maintenance Repair Overhaul for Military and Civilian Fleet

We assist in:

- End to End Ground Vehicle Life-Cycle Support
- Modification and Maintenance Solutions
- Field Level and Sustainment Level Solutions
- Continuous Improvement and Quality Control
- Service Life Extensions Programs
- Complete After-Market Maintenance and Logistic Support
- Total Package Fielding and Training
- New Equipment Fleet Introduction
- Fuel and Consumable Management
- Equipment Upgrade and Refurbishment

Our teams enable readiness through equipment maintenance, including wheeled vehicles, tracked vehicles, and hard and soft skin car rentals in critical military areas around the globe. Every vehicle we service gets a thorough diagnostic analysis and inspection to ensure it meets all required specifications before being decommissioned. In addition, Oak Group boasts of having readily available world-class mechanics, technicians, machinists and engineers whenever the mission requires. We provide global supply chain support to ensure vehicle replacement parts are readily available whenever and wherever they are needed.

Vehicle Maintenance & Fleet Management

We specialize in tasks catered to the unique requirements of military operations.”
